# How to install QuickRss for Wownder

Welcome to the installation guide for **QuickRSS**, an essential add-on for your Wowonder social network. QuickRSS enhances your platform by enabling users to generate personalized RSS feeds for profiles and pages. With this add-on, users can subscribe to updates using popular RSS readers like **Feedly**, **Inoreader**, **NewsBlur**, **OldReader**, or any default RSS application.

This tutorial will guide you through the step-by-step process of installing and configuring QuickRSS to ensure seamless integration with your Wowonder network. Whether you're a developer or a site administrator, this guide will help you get QuickRSS up and running effortlessly.

## What You'll Learn:

- How to upload and configure QuickRSS files.
- How to integrate QuickRSS buttons into profiles and pages.
- Testing and verifying the functionality for users.

Let's get started and take your Wowonder platform to the next level with the power of **QuickRSS**!

## Step 1: Upload the files

---

Upload all the files to your root following the zip structure

Visite [youSite.com/installrss.php](https://yourSite.com/installrss.php)

## Step 2: Edit files

---

Open [htaccess](#) and add **(Please backup any file that you will edit)**

```
# **** RSS FEEDS****  
RewriteRule ^rss(?:/|$) index.php?link1=rss [QSA]
```

Open [index.php](#) located at the root and Look for (Around line 867) **<= This place is very important, must be around this line**

```
else {  
    switch ($page) {
```

after that add

```
case 'rss';  
    include('sources/rss/content.php');  
    break;
```

## Add CSS

Open themes/YourTheme/layout/container.phtml

look for

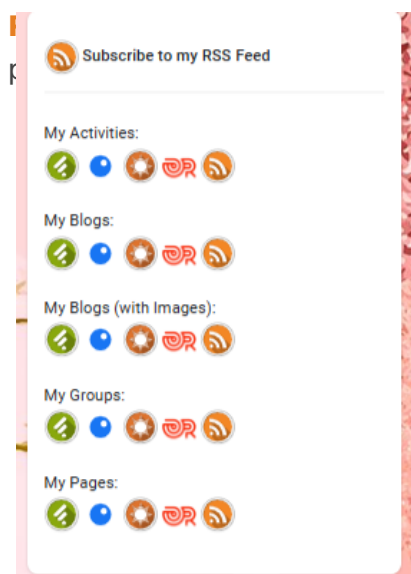

```
<title><?php echo $wo['title'];?></title>
```

and after that add

```
<link rel="stylesheet" type="text/css" href="<?php echo $wo['config']['theme_url']; ?>/stylesheet/rss.css" />
```

and after that add

## Step 3: Adding Buttons to specific pages

want to add this profile block so every user can share their personal

Open Themes/YourTheme/layout/timeline/content.phtml

look for

```
echo Wo_LoadPage('timeline/custom-fields');
}
}
?>
</div>
<?php } ?>
```

and after that add

```
<?php echo Wo_LoadPage('rss/profileblock');?>
```

**BLOGS BUTTONS:** If you want add the buttons to the blogs like this

Look for themes/YourTheme/layout/blogs/blog.phtml

```
<?php echo $wo['lang']['most recent art']; ?>
```

after that add

```
<?php echo Wo_LoadPage('rss/iblogs-button'); ?>
```

**PAGES BUTTONS:** If you want add the buttons like this

+

Create New Page

Fengshui

3 people like this

Live Style

Edit

Open themes/layout/page/my-pages.phtml and look for

```
<div class="page-margin wow_content">
```

After that add

```
<?php echo Wo_LoadPage('rss/pages-button.phtml'); ?>
```

**GROUPS BUTTONS:** If you want add the buttons like this

Groups

My Groups

Suggested groups

Joined Groups

+

Create New Group

Buddhism

1 Members

Edit

Open themes/layout/group/my-groups.phtml and look for

```
<h2 class="tag_page_title m5"><?php echo $wo['lang']['groups']; ?></h2>
<>
```

After that add

```
<center><?php echo Wo_LoadPage('rss/groups-button'); ?></center>
```

**MARKETPLACE:** If you want to add the buttons like this

Marketplace

Search for products

Before you re able to buy you need to add money to your wallet. Please click [here](#) to learn how to add funds to you wallet.

Digital Business Card  
widaet Wowonder  
\$15.00

Look for

```
<h2 class="tag_page_title m5"><?php echo $wo['lang']['market']; ?></h2>
```

After that add

```
<?php echo Wo_LoadPage('rss/products-button'); ?>
```

Uff! we are done

Enjoy! And if you love it leave me a [review here it really helps build a reputation.](#)
