Step 1: Upload the files

Download the zip folder and upload it to your root folder according to the file instructure.

your admin-panel/pages/generate-sitemap will be overwriten to add the button.

Step 2: Run database install

Visit yoursite.com/install-indexnow.php to install the table needed to hold your key.

Step 3: Edit files to show pages in admin-panel

Open admin-panel/autoload.php

```
//IndexNow Start
'indexnow',
'save_indexnow_key',
//IndexNow End
```

```
    'cronjob_settings',
    'system_status',
    "upload-to-storage",
    "ai-settings",
    //IndexNow Start
    'indexnow',
    'save_indexnow_key',
    //IndexNow End

    "manage-content-monetization",
);
$wo['mod_pages'] = array('dashboard', 'post-settings', 'manage-stic
'manage-pages', 'manage-groups', 'manage-posts', 'manage-articles',
'manage-movies', 'manage-games', 'add-new-game', 'manage-user-ads'
```

on the same file look for

```
<li>
        <a <?php echo ($page == 'generate-sitemap') ? 'class="active"' : ''; ?> href="<?php echo Wo_LoadAdminLinkSettings('generate-sitemap'); ?>" data-ajax="?path=generate-sitemap">Generate SiteMap</a>
    </li>
```

and after that add

```
<li><a <?php echo ($page == 'indexnow') ? 'class="active"' : ''; ?> href="<?php echo
Wo_LoadAdminLinkSettings('indexnow'); ?>" data-ajax="?path=indexnow">IndexNow</a></li>
                    <?php } ?>
                    <?php if ($is_admin || ($is_moderoter && $wo['user']['permission']['manage-invitation-keys']
== 1)) { ?>
                    <li>
```

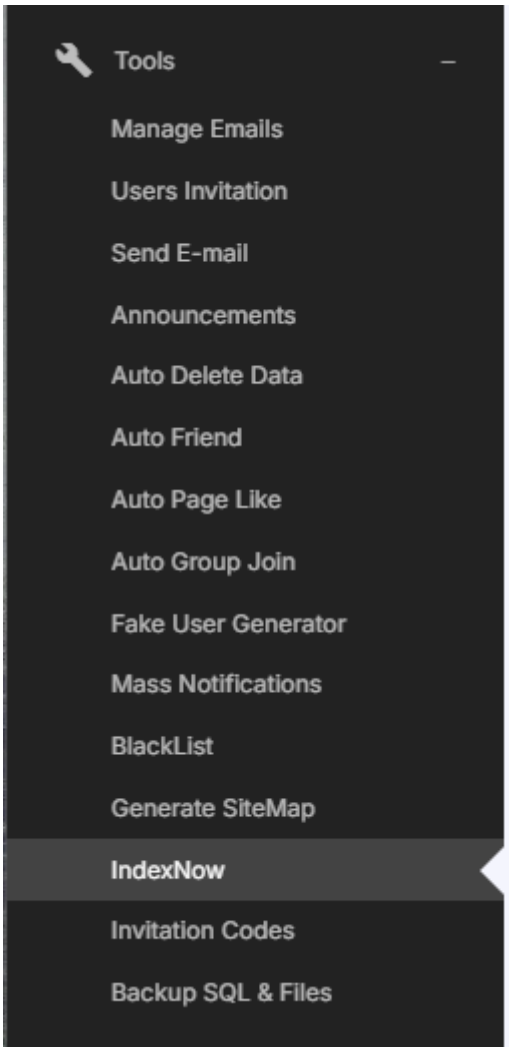
Should look as in this picture

```
1421                        <?php } ?>
1422                        <?php if ($is_admin || ($is_moderoter && $wo['user']['permission']['generate-sitemap'] == 1)) { ?>
1423
1424
1425                        <li>
1426
1427                            <a <?php echo ($page == 'generate-sitemap') ? 'class="active"' : ''; ?> href="<?php echo
    Wo_LoadAdminLinkSettings('generate-sitemap'); ?>" data-ajax="?path=generate-sitemap">Generate SiteMap</a>
1428                        </li> <<< After this line
1429                        <li><a <?php echo ($page == 'indexnow') ? 'class="active"' : ''; ?> href="<?php echo
    Wo_LoadAdminLinkSettings('indexnow'); ?>" data-ajax="?path=indexnow">IndexNow</a></li>
1430                        <?php } ?>
1431                        <?php if ($is_admin || ($is_moderoter && $wo['user']['permission']['manage-invitation-keys'] == 1)) { ?>
1432                        <li>
1433                            <a <?php echo ($page == 'manage-invitation-keys') ? 'class="active"' : ''; ?> href="<?php echo
    Wo_LoadAdminLinkSettings('manage-invitation-keys'); ?>" data-ajax="?path=manage-invitation-keys">Invitation Codes</a>
1434                        </li>
1435                        <?php } ?>
```

Step 4:Find your setting page

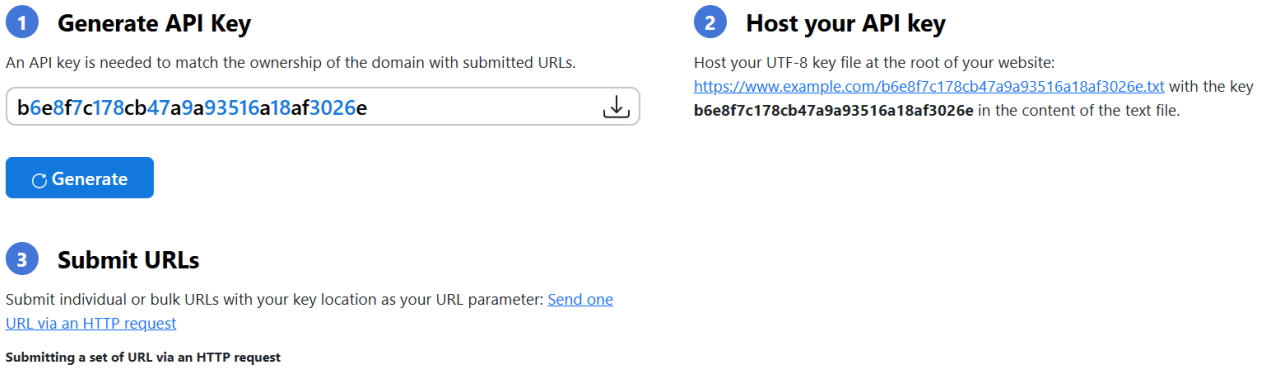
Visit yoursite.com/admin-cp/indexnow to add your key

You will find it under the generate sitemap menu

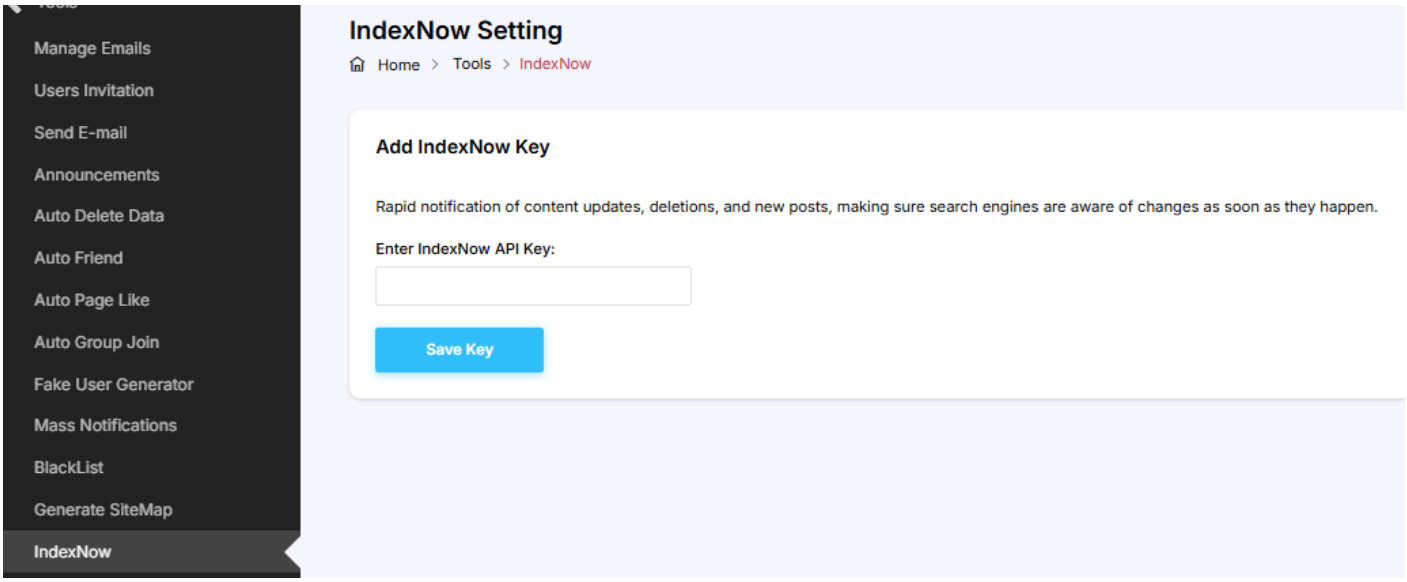


Step 5: Generate your key

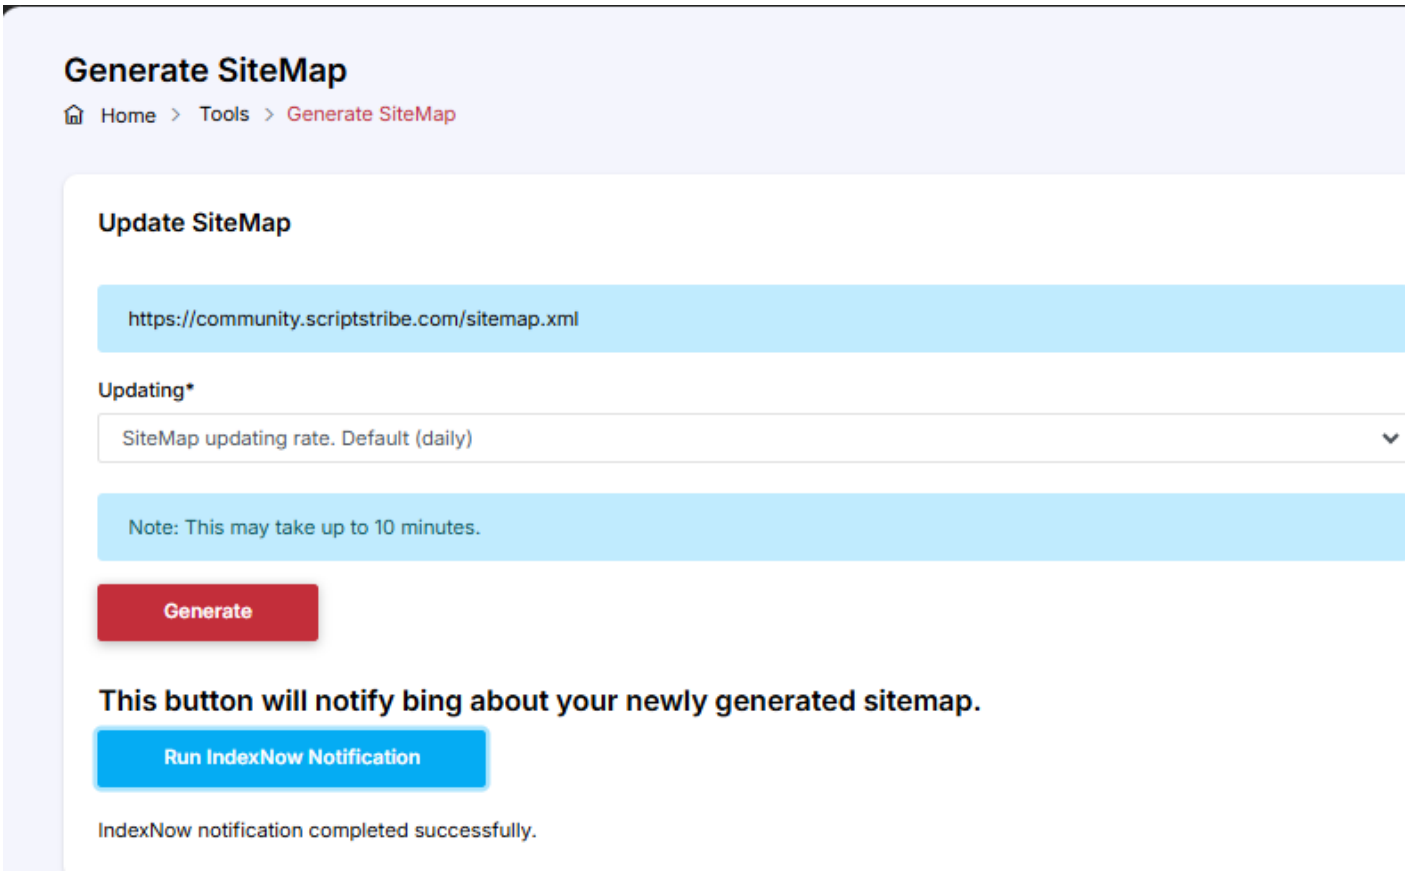
Visit https://www.bing.com/indexnow/getstarted and scroll all the way down to generate a key. (See the picture)



Once generate, add it in you admin-cp settings and save. (See the picture)



Once you Generate a sitemap you will find the submit button next to it.



That is all, if you like the addon leave me a review, join the support forum ask and give help to wowonder users at https://community.scriptstribe.com/forum/
