

Error patch for Rewards page

This error is caused if you don't have points setup up
you will see error

```
Fatal error: Uncaught DivisionByZeroError: Division by zero in /var/www/vhosts/
```

Solution

Open Look for `content/themes/default/templates/badges/rewards.tpl`

```
{print_money(((1/$system['points_per_currency'])*$user->_data['user_points'])|number_format:2)}
```

and replace with

```
{if isset($system['points_per_currency']) && $system['points_per_currency'] > 0}
    {print_money(((1/$system['points_per_currency'])*$user->_data['user_points'])|number_format:2)}
{else}
    {__("Conversion unavailable")}
{/if}
```

Open `badges/cron_badges.php` and look for

```
// Check if user already has this badge
$check = $db->query("SELECT * FROM users_badges WHERE user_id = $user_id AND badge_id = $badge_id");
if ($check->num_rows == 0) {
    // Assign badge
    $db->query("INSERT INTO users_badges (user_id, badge_id, awarded_at) VALUES ($user_id, $badge_id, NOW())");
}
```

and replace with

```
// Check if user already has this badge
$check = $db->query("SELECT COUNT(*) as count FROM users_badges WHERE user_id = $user_id AND badge_id
= $badge_id");
$check_result = $check->fetch_assoc();

if ($check_result['count'] == 0) {
    // Assign badge (preventing duplicate entries)
    $db->query("INSERT IGNORE INTO users_badges (user_id, badge_id, awarded_at) VALUES ($user_id,
$badge_id, NOW())");
}
```
